

Thank you Sainsbury's for what you have done for Autism Wishes

During our charitable partnership, Sainsbury's staff have helped fulfill the dreams of many young people, whose lives will have been enriched and changed for the better...from Ipads, to trampolines, to experience days, to hosting an employment conference...lots of wishes have been fulfilled.

Autism Wishes is a local charity, consisting of 5 Trustees, all of whom have a family member with Autism. The Trustees are passionate about making a difference and changing the lives of individuals with Autism and do not receive a salary for the work that they do.

We grant wishes to children and adults with Autism and support local Projects that promote the betterness and the wellbeing of those with Autism.

Wishes are the focus of Autism Wishes work, however, thanks to Sainsburys funding, Autism Wishes have been able to do lots more for individuals and families with a person with Autism including the following :-

Supporting a local ASD Playgroup - the first of it's kind in the area, and a very well used and loved facility by many families

Santa Train Ride Competition - three families were given the opportunity to win a santa train ride for their little one and family

Christmas Party - A huge christmas party saw over 100 people attend from the local area with their children on the spectrum. Face painting, disco, Elsa, Olaf and Spiderman were on hand, as was Father Christmas to hand out little gift bags for all the children to make it a memorable experience

Summer Camping Trip - thanks to Sainsburys, Autism Wishes have been able to offer a weekend camping trip to families with a child with Autism in the Summer and are looking forward to hosting that. This is the second year that they will be able to do it.

Weekend Breaks - Thanks to Sainsburys, Autism Wishes are able to offer an amazing weekend away to families with a child with Autism. There are three breaks available and include two breaks in Blackpool and two in North Wales throughout the year.
