HOME SPA

BAOBAB SEED (Adansonia Digitata)

The Baobab tree is fondly called the "Tree of Life". The kernels contained within the Baobab fruit pod yield a rich, golden scented oil traditionally used by the African women to protect their beautiful skin against the harsh African savannah environment. The oil has strong natural moisturizing properties and is commonly used to prevent and cure dry skin conditions of the face and body.

Essential Oils from Africa

BAOBAB SEED RANGE

GLYCERINE SOAP

Essential Oils from Africa

MARULA NUT (Sclerocarya Birrea)

Rich in antioxidants and oleic acid, this natural oil is cold pressed from the nut of the marula fruit. Marula Oil is rich in components necessary for healthy skin, such as antioxidants, vitamins E and C, and oleic acid.

It has a high concentration of palmitic acid which forms a protective coating on the skins surface. Because of this, it is a great ingredient for dry skin.
